## SUBJECTS

**Aborigines**
Patterns of persistent otitis media in first year of life in Aboriginal and non-Aboriginal infants, 893

Acoustic measurement
Acoustic measurement of subglottic stenosis, 504

Acoustic neuroma
Quality of life after acoustic neuroma surgery, 423

Acoustic rhinometry
Acoustic rhinometry in study of acute nasal allergic response, 811

Acquired immunodeficiency syndrome
Intralesional vinblastine for treating AIDS-associated Kaposi's sarcoma of oropharynx and larynx, 272
Morphologic patterns and molecular pathways of AIDS-related head and neck and other systemic lymphomas, 495

Acrokeratosis paraneoplastica
Bazex's acrokeratosis paraneoplastica, 487

Action potential
Reversibility of compound action potential during acute phase after transitory local ischemia, 472

Acyclovir
Bell's palsy treatment with acyclovir and prednisone compared with prednisone alone: double-blind, randomized, controlled trial, 371

Adenoid squamous cell carcinoma
Mucosal adenoid squamous cell carcinoma of head and neck, 409

Adenoidectomy
Atlanto-axial subluxation and cervical osteomyelitis: two unusual complications of adenoidectomy, 295
Meningitis after adenoidectomy: anatomic explanation, 684

Adenoma
Pleomorphic adenoma of tongue base, 835

Adenovirus
Adenovirus-mediated gene therapy for head and neck squamous cell carcinomas, 562

Adherence
Adherence of nontypeable *Haemophilus influenzae* to respiratory epithelium of otitis-prone and normal children, 367

Adhesion
Study on adhesion factors in lymphocyte migration to middle ear mucosa, 795

Aerocele
Aerocele: unusual complication of tracheocutaneous fistula repair, 994

Aerodigestive tract
Aerodigestive tract foreign bodies in older child and adolescent, 267

Agger nasi cell
Role of agger nasi cell in chronic frontal sinusitis, 694

AIDS
Intralesional vinblastine for treating AIDS-associated Kaposi's sarcoma of oropharynx and larynx, 272
Morphologic patterns and molecular pathways of AIDS-related head and neck and other systemic lymphomas, 495

Air pressure
Subglottic air pressure: key component of swallowing efficiency, 253

Airflow
Postural changes in respiratory airflow pressure and resistance in nasal, hypopharyngeal, and pharyngeal airway in normal subjects, 218

Airway
Acute airway obstruction in hospitalized infant: four hard lessons in distal trachea, 532
Adult airway management principles and techniques, 665
Pathophysiology of reactive airway disease and sinusitis, 98
Role of bronchoalveolar lavage in hospitalized pediatric patients, 863
Visualizing pediatric airway: three-dimensional modeling of endoscopic images, 12

Allergy
Acoustic rhinometry in study of acute nasal allergic response, 811
Brain stem auditory-evoked potentials of mice with experimental allergic encephalomyelitis, 905
Lack of effect of hot, humid air on response to nasal challenge with histamine, 146
Role of substance P in vascular response of nasal mucosa in nasal allergy, 648

Allograft
Allograft tympanoplasty type 1 in childhood population, 871

Alzheimer's disease
Ontogenetic expression of spot 35 protein (calbindin-D28k) in human olfactory receptor neurons and its decrease in Alzheimer's disease patients, 132

Anomaly
Bifid epiglottis, 155

Anterior commissure
Carcinoma of anterior commissure of larynx: I. Embryological and anatomic considerations, 303

Carcinoma of anterior commissure of larynx: II. Proposal of new staging system, 391

Artery
Demonstration of nasal septal branches of sphenopalatine artery by use of new intravascular injection method, 309
Interstitial iodine 125 in advanced recurrent squamous cell carcinoma of head and neck with follow-up evaluation of carotid artery by ultrasound, 955

Arytenoid
Endoscopic laser medial arytenoidectomy versus total arytenoidectomy in management of bilateral vocal fold paralysis, 857
Postintubation arytenoid subluxation, 384
Subtotal carbon dioxide laser arytenoidectomy by endoscopic approach for treatment of bilateral cord immobility in adduction, 438

Aspiration
Aerodigestive tract foreign bodies in older child and adolescent, 267
Magnetic resonance imaging of inhaled peanut, 574
Management of subglottic foreign bodies, 541
Pediatric tracheobronchial foreign bodies: historical review from The Johns Hopkins Hospital, 555
Repeatedly successful closure of larynx for treatment of chronic aspiration with use of botulinum toxin A, 521

Asthma
Pediatric exercise-induced laryngomalacia, 169

Atmospheric pressure
Eustachian tube function and middle ear barotrauma associated with extremes in atmospheric pressure, 887

Atrophy
Vocal fold atrophy and its surgical treatment, 182

Auditory-evoked potential
Brain stem auditory-evoked potentials of mice with experimental allergic encephalomyelitis, 905

Auricle
Pharyngeal dermoids ("hairy polyps") as accessory auricles, 819

Autologous fat
Autologous fat injection for unilateral vocal fold paralysis, 602

**Bacteria**
Adherence of nontypeable *Haemophilus influenzae* to respiratory epithelium of otitis-prone and normal children, 367
Experimental otitis media with *Moraxella (Branhamella) catarrhalis*, 234

Barotrauma
Eustachian tube function and middle ear barotrauma associated with extremes in atmospheric pressure, 887

Basaloid squamous cell
Basaloid squamous cell carcinoma of head and neck: clinicopathological features and differential diagnosis, 75

Basement membrane
Basement membrane in middle ear cholesteatoma. Immunohistochemical and ultrastructural observations, 804

Bazex's acrokeratosis paraneoplastica, 487

Bell's palsy
Bell's palsy treatment with acyclovir and prednisone compared with prednisone alone: double-blind, randomized, controlled trial, 371

Benefit
Measuring patient benefit from otorhinolaryngological surgery and therapy, 415

Benign lesions
Immunohistochemical characterization of benign laryngeal lesions, 525

Bleeding
Evaluation and management of hemoptysis in infants and children. Report of nine cases, 516

Bone
Onlay bone augmentation with osteoinductive implant, 568
